

Dear Resident of Eden Valley-Watkins School District:

This census is very important to our district. Please complete and return it as soon as possible. The Minnesota State Legislature requires every public school district to take and maintain an annual census of its birth to 21 population.

This information is very important to our district:

- Information from the census is used to project enrollment, staffing needs, facility use and transportation routes.
- Early Childhood Screening of every 3-4 year old in the district required by state law and parents to be given information or need to be contacted for appointments.
- State funding for Early Childhood Family Education program and School Readiness is based on the certified number of children, birth to 5 not yet in kindergarten, living in the district.
- Young people continue to be on the census until they are 21 or move out of the district.
- Students that are opened enrolled will report census to the school district they are living in, not the district they attend.

Please complete this form online at: <https://forms.gle/HJdPapzec99nKtzj9> or at the bottom of this sheet. Thank you for returning it as soon as possible. It is very important to get our census as accurate as possible. Please list all people living at your address, including infants. If you have any questions or concerns regarding the census, or know of any residents new to the district, please contact Sheri Schumacher at 320-453-6455, ext. 2133 or sschumacher@evw.k12.mn.us.
